

Commissary Authorization

The commissary acts as the base of operation for the mobile unit. The commissary must be a food establishment both licensed by and in good standing with the Health Department. Agreements will be approved on a case by case basis. The commissary is used for getting fresh water, dumping wastewater, washing dishes, storing leftover and fresh food and dry goods. This agreement and log must be available for inspection at all times. A new or renewed agreement will be required in order to renew your permit each year. The agreement must be signed by the mobile establishment **owner** and the commissary **owner**. If you are found operating without a commissary or using a private home for any portion of the operation, your permit will be suspended.
